

Opera 331.

Wednesday Aug. 16, 1922

Special work.

I reported at the Fulton Bag mill this a.m. for work. But was sent out to rest because I had my notice in. Dutch Sword put a girl on my work and I ask him what he meant and he said every body had to rest that was working a notice. There was eight spoolers sent out of No. 1. Spooler room this a.m. There was two ask off sick and he would not let them or I learn that there's about six that have got their notice in. Every thing was quite in the mill this a.m. I suggest that the letter that was wrote must to have been some one that got fired and wrote this letter to Mr Florence thought that they would scare some body. I may say that I never saw a nicer behave than than Dutch Sword is among the women in the mill and also Cole. I notice that Dutch Sword works just as hard as he can all the time. I was talking with Cula meeks and she said that she didn't like Dutch Sword and said if he sent her out tomorrow he could just pay her time. The spooler don't like him because he wants them to work all the time I think that's what they dislike about him. There is some in there that can't be satisfied they have to find fault of some body.

Thursday Aug. 17, 1922

Special work.

I reported at The Sutton Bag mill this a.m. for work and have worked as a spooler in no. 1 spooler room. The work have run good today but the spoolers have been behind with pieces. They don't like to get out of pieces because they can't make any thing. The most of the spoolers are all the time grumbling about they don't any thing. I was talking with Julia Michal today and she said that she had been at work nearly two year here and she said this was the worst place she ever work she said that she did make much and work hard as she can go all the time. This was a girl by the name of Maggie Wilson said to me she said less get out this and make Cole gives us our time and I told her that I was working a notice to get my time she certainly does knock this work and her home is here too. I notice that Dutch Sword have sent Bessie Camp out three days this week because she put her notice in Monday seem that he sends her back for meat. I notice that he has some that he lets work all the time this was a couple of spoolers that ask of and he would not let them off.
