OE-5

My dear Victor:

I have your personal letter of the 3rd regarding your talk with Mr. Bacon, of the Railway Audit & Inspection Company.

Please do not talk to the local agents about these matters; if you have anything to say take it up with us here, as we want to handle these things exclusively, and the writer gives them his personal attention.

There is little likelihood of being able to get the party we have in mind until the early part of October, but as soon as we hear, we shall advise you.

Affectionately,
