Dear Sir:-

*Cecil Hester told T.D.S. "not to worry";
Council & Police Committees have already
agreed not to issue licenses in any
residential section in the 1st ward.
I asked Troy what if some one per-*

One Mr. Rauzin called one day last week to ask if we would withdraw our opposition to a retail liquor store being located on Fair Street, Southeast, in close proximity to our cotton mill village.

He was courteously but firmly told that we would strongly oppose the opening of such a place, giving as our reason that temptations of that nature should be kept as far away from our village as possible.

Mr. W. L. Shields, a special officer in charge of our village, whose twenty or more years service with this company, and whose signature is attached hereto, will vouch for our statement when we say that no other kind of business for which a license could be issued, could be half as detrimental to the welfare of our neighborhood.

We firmly believe you will see this in the same light and use your good office in preventing this license.

Yours very truly,

FULTON BAG & COTTON MILLS

T.S. Florence

Manager, Payroll, Employment
and Personnel Departments.

We, the undersigned, agree that a retail liquor store in close proximity to our mill village would be detrimental to the welfare of our employees.

Under the Com. to agree that this was not a residential section. The key's he can get Hester to promise to notify him of any applications in 1st ward during up for a hearing.
