

Wednesday

3/17/15

There was great Disappoint in Camps when the Industrial Commissions date was cancelled. Reagan Mullenax got numerous affidavits in Daly's room. Mullenax and Reagan framed each deposition and I suppose this batch of depositions will be sent to the commission, but presently they could be found at the Piedmont Hotel in Daly's room. John B Lennon stated, that after the Commission reads the depositions, they will very likely, set a date for a hearing and go further into the case, and all Campers are relying on Governmental aid, and all told to keep on pickit and pull hard. There is but little to the labor stems lately, edited it only cheap notoriety which will soon blow over. While really unable to be out, I was on pickit and returned to Camps with Fred Cannon and others. I went to the labor temple at 3 P<sup>m</sup> and was given 5<sup>00</sup> doggers like the one enclosed to distribute.

I learned personally from Reagan that he had a man now to go in the mill and work like Ed manley, and try and stay inside until called. He introduced the man to me near the Temple, as Mr Jones He is about 38 to 40 years old dark hair, dark mustash, Red Cheeks, Irish look, about 5'6" High, wt 145 to 155, and very commonly clad has known Reagan for years, and as they parted, Jones stated I know what to do Jones is supposed to apply for work tomorrow or probably this P.M. Wednesday, and is report to Reagan at the Hotel. I visited several saloons and noted a number of professional Card men Crooks but boy shing was quiet There will be know danger what ever to property while they are awaiting on the out come of the Industrial Commission, and as they only left Mr Daly to gather the depositions, I would suggest should he desire your side of the situation, that you care so little

About the matter until you have no answer  
 or at least nothing to answer to. A. K. Wilson's  
 trial comes up to morrow and his attorney  
 states he will get it not pressed, they  
 also claim to have gotten \$25 taken off of  
 Medlocks fine. There is nothing they  
 in camp and pickets may come  
 stronger for a few days, on account of some  
 much labor news of late. Buster Wilson  
 came from just before today and is not  
 near well and more cases may be heard  
 for. I was on picket at 6 PM but was not  
 able to remain long on the streets, still  
 I will walk through the village again  
 to night, and repeat it if needed to
